

I'm excited to present my NFT collection of 7538 original digital artworks. Although they may not be entirely unique and you may find better NFT collections with some actual utility, I've created this collection with the intention of making the world a better place than it is now. This collection represents hope and positivity for the future.

I believe that quotes can inspire people to take action and make a difference in the world, and that's why I've created this NFT collection. I've been a part of the NFT space for some time now, and I've noticed that very few people have taken initiative in this direction.

NFTs have brought together people from all walks of life, but there is still a gap that exists, which prevents certain individuals or communities from making a positive change in the actual world. I want us to be the ones who will fill that void in this space.

*The most important aspect of this collection is that **100%** of the proceeds from the royalties will go to charities chosen by the community, and **40%** of the proceeds earned from the minting process will also go to charities chosen by the community. The remaining **60%** of the proceeds earned from the minting process will be kept for the QuotesVault community and will be managed by the DAO formed.*

I've tried my best to create a meaningful collection that you will be proud to own and look at every day. While the website may seem like the CSS has gone rogue, I learned how to create a website through YouTube tutorials, and this is the best I could do with the time and budget I had. However, after the minting process is complete, I'll be launching a dedicated website for our collection.

I hope that you will join us in this endeavor to make a positive impact on the world. Together, we can create a better future for all.
